What experience and skills make you the best candidate for this office? (Max. 750 characters)

I bring experience as a teacher, nonprofit leader, policy analyst, and small-business manager at my family’s restaurant. These roles have given me skills in listening, problem-solving, and building relationships across diverse communities. I understand both the challenges of growth and the importance of protecting what makes Wake Forest special. Guided by equity, data, and heart, I will ensure decisions are thoughtful, transparent, and focused on making our town a place where all neighbors—old and new—can thrive.

Identify your top three (3) issues that you wish to address during your tenure in office and rank them in order of priority. (Max. 750 characters)

Growth that Makes Sense – As our town expands, I want to ensure that decisions are made carefully, with attention to roads, parks, and the character of our community.

Opportunities to Stay and Thrive – Wake Forest should remain a place where young families, longtime residents, and seniors can all afford to live and grow.

A Connected Community – I believe in open conversations, trust, and bringing people together so every neighbor feels part of Wake Forest’s future.

How will you address the top issue once you are in office? (Max. 750 characters)

I will bring people together and rely on data, research, and community input to guide decisions that serve the greatest number of neighbors. I know the best solutions come from collaboration, and I’m not afraid to listen to those with more expertise. By using my skills in communication and building relationships, I'll work alongside smart, dedicated people to make thoughtful choices that keep Wake Forest moving forward while staying true to the community we love.

Additional Comments (Max. 1000 characters)

I feel truly honored for the opportunity to serve Wake Forest. My passion for public service comes from gratitude for what this town has given me and my family, and from a genuine love for the people who make it special. I believe leadership should be proactive, not reactive, and I want to help guide our future with thoughtfulness and care. I don't claim to have all the answers, but I am eager to listen, to learn, and to work hard alongside neighbors, leaders, and experts who share this commitment. Guided by equity, data, and heart, I will bring humility, compassion, and determination to this role. Wake Forest is growing, and I want to be part of shaping that growth in a way that keeps our community connected, welcoming, and strong.
